

AAK Mission and Philosophy Statement

All About Kids Montessori school bases its philosophy on high quality early childhood program. Our

Philosophically, Winnetka Community Nursery School strives to:

- Foster positive self-identity and sense of emotional well-being.
- Develop social skills and knowledge.
- Encourage children to think reason, question and experiment.
- Encourage language and literacy development.
- Enhance physical development and skills.
- Encourage and demonstrate sound health, safety and nutritional practices.
- Encourage creative expression, representation and appreciation for the arts.
- Respect cultural diversity.
- Include parents as partners in the education of their children.

By providing a rich and creative curriculum, highly qualified staff, opportunities for parental involvement and partnership, a sense of school community, All About Kids Montessori School strives to be a model in excellence in early childhood education.

Educational Organization

Research has shown that the child's potential for learning is largely established by age six. Child

AAK Community

The school community at All About Kids is an inviting and welcoming one. Our parents and teachers feel a sense of partnership in guiding the learning process of the students here. There is ample opportunity for parent involvement in community events, governance and ambassadorship of the school. Our facility is designed especially as a Montessori school. Our classrooms are fully equipped with all the approved Montessori materials, filled with natural light and with access to outdoor play areas and gardens. Our school is an active member of Association Montessori International (AMI), also registered with the Illinois board of education and a licensed school with DCFS.

AAK History

In 1995, All About Kids Montessori School bought the land, with the community support and several families connected our school was running in a short time. We are proud to say our school has grown from 10 students to 100 students. As a private and independent school, it has the freedom to determine its own direction and standards.

Our school was founded with a clear and distinct educational mission, and is run by a Board of Directors that makes decisions regarding the school's current operations and future direction in support of that mission. Our facility is designed especially as a Montessori school. Our classrooms are fully equipped with all the approved Montessori materials, filled with natural light and with access to outdoor play areas and gardens.

We are registered with the Illinois Board of Education and licensed by DCFS. Montessori Curriculum is taught by the teachers who are active member of Association Montessori International - AMI.
